

3DIR spectroscopy of water

GR0: F. Rao, D. Prada-Gracia

July 1, 2011

1 Introduction

This is a good example for a figure citations. As shown in Fig. 1, we were right! Below you see how to create a new paragraph.

Lorem ipsum dolor sit amet, pri ne delectus salutandi accusamus, nec ut ullum dicit eirmod. Unum vero theophrastus no est, mel in dicant homero consequat. Ad nam aeterno nominati argumentum. Eos id sint congue deleniti, qui ad homero nostrum. Ut eam perfecto omittantur, nam apeirian tractatos in, te cum doming commodo vidisse.

You can even write equations:

$$y = ax + c - \sum_i x^i \quad (1)$$

No vim suas quando. Quem sadipscing ut cum, ex ius mentitum verterem, consul petentium nam ei. No ius quando homero. Agam sanctus eu vis, tota dictas sit ea. Te vis audiam labores, pri at stet eligendi appellantur. In duis dolorem eos.

A second equatio here (note the numbering automatic changed):

$$E = mc^2 \quad (2)$$

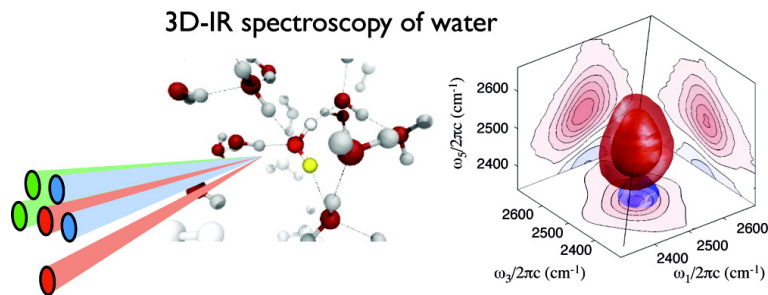

Figure 1: Put here a description of the figure
